Montona Description All these pictures have been taken during last spring and this summer in Montona , a small village located in Croatia, one hour far from Trieste. This town stays at about 300 m.s.l and is surrounded by green hills. Is famous for the truffle and for the film festival that begin each year at the end of July. Photo

As usually, pictures have been taken mainly with 24-105 and 10-22, during summer session I tried to use the polarizer filter that made the sky very dark. Thank you for visiting my site !
